

As announced in the 13 February 2020 ICS Weekly

2020-21 Tuition Fees

The Board of Governors has approved the Tuition Fee rates requested by the school for the 2020/21 school year. Tuition has increased by 5% overall, while there is no increase in the capital fees for both new and returning students. Our annual operating budget is funded by tuition fees; our obligation as a Board is to ensure the school has appropriate funding in place to deliver on the commitments ICS has made to the community.

The key driver of the tuition fee increase is balancing the anticipated enrollment numbers and associated revenue with the cost of our staffing, in particular rising housing costs in Addis for international professional staff, as well as salary and benefit commitments, all of which aim to ensure we retain our talent at ICS. To review the 2020-21 fees, visit the tuition page on the ICS Website.
